

CORELUX INTERIOR SUPPLY

— Luxury Interiors Made Affordable —

◆ Company Profile

-In 2019, the core team structure of the company was formed, and the business direction was focused on the whole house customization field. After 4 years of market experience with accumulation, the company has been officially registered and established in Singapore in 2023.

-With a professional production base located in China, it will be upgraded to the whole house high-end customization system has been optimized and adjusted in style and product structure, fully transforming towards modern minimalism.

◆ Brand positioning

-Simplicity and luxury, high-end customized paint free wooden system home furnishings for the whole house, and differentiation from many solid wood and mixed oil custom brands in the market. It is more diverse in texture, color, shape, and fashion performance, which can better meet personalized customization needs.

◆ Product advantages

- High quality/high cost-effectiveness/efficient systematization
- Widely adaptable to modern home décor
- First tier brand high-quality environmentally friendly materials

Our advantages of whole house customization

- Formaldehyde emission meets ENF&F4 ☆ standards

We use MDI glue, which has a low glue usage and the equipment applies glue evenly, MDI glue has almost no formaldehyde, and the equipment evenly applies glue, which minimizes the amount of formaldehyde.

- MDI glue high-temperature hot pressing technology

We use fully automated equipment and high-temperature hot pressing technology to adhere the surface finish on the board, making the surface treatment smoother and high quality.

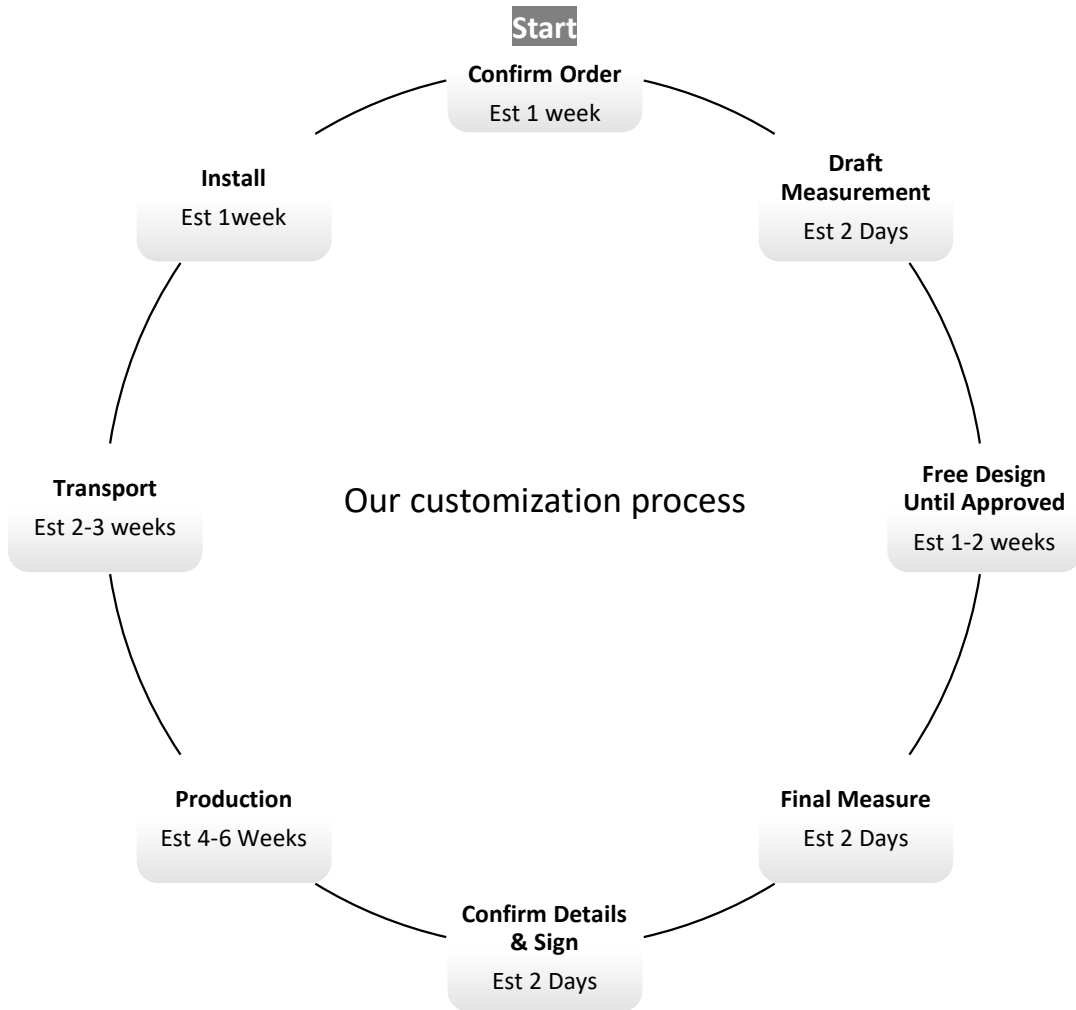

- Edge banding technology

Our PUR/Laser edge sealing is much stronger than ABS/EVA edge sealing for hand cabinets, resulting in lower formaldehyde emissions, less cracking of board corners, better quality, and safer use.

- High precision

Our products are produced using machines, with consistent internal and external materials and more precise dimensions.

Our main products

- CABINET/WARDROBE : Compress Board, Plywood, OSB
- FLOORING: VINYL/SPC FLOORING
- WALL PANEL: PVC WALL PANEL

Introduction to raw material boards

- Material Types:
 - Compress Board,
 - OSB (ordinary/imported),
 - Plywood(multi-layer) board
- Maximum Door Height (mm): 2700
- Board thickness (mm): 9, 12, 18, 22, 25
- Surface treatment: PET, Double veneer and baking paint process
- Process Tech: Arcs, Grilles, Various door shapes (special door shapes can only use density boards)

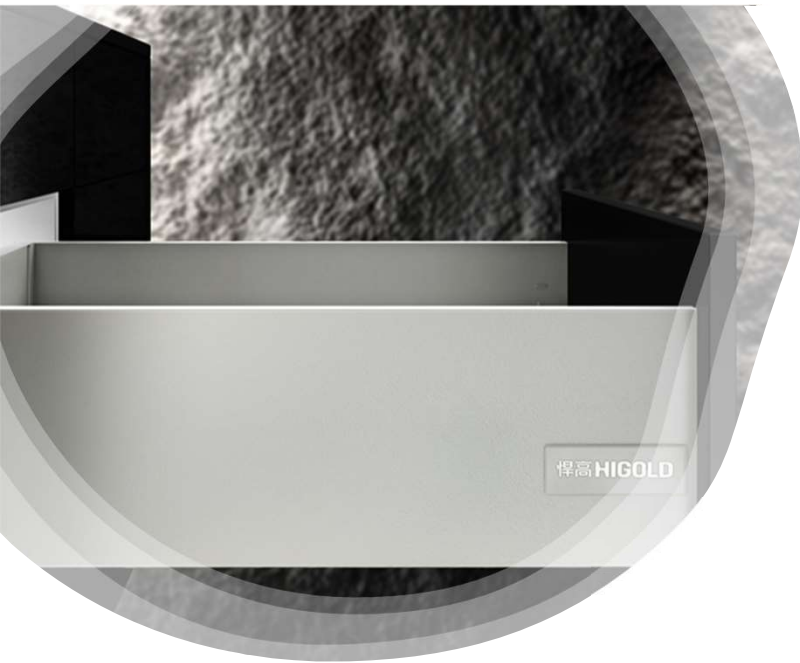

Introduction to raw material boards

- **Compress Board (default use):**

Stable quality, longest market test time, environmental protection level meets F4☆, international whole house customization brands basically only use it as a substrate, such as Poliform, Boffi.

- **OSB:** cabinet door use, feature: no need for straightener.
- **Multi-layer board:** moisture-proof

Hardware Introduction- Ordinary hardware

- we default to using Chinese brands (with a 20-year warranty): DTC, Jusen.
- SG market recommendation: Blum/Higold Hinge
- Soft function tools: Kitchen basket/Wardrobe storage basket (Higold).

Hardware Introduction- Other hardware

- Wardrobe Dehumidifier
- Mirror Cabinet (Multifunctional intelligent mirror)
- Glass Door: Aluminum frame glass door. Glass colors available: Black, White, Brown, Gray, and other customized colors
- Lighting System: light strip, transformer, hand swept induction switch
